

Barcode Facility in Miracle

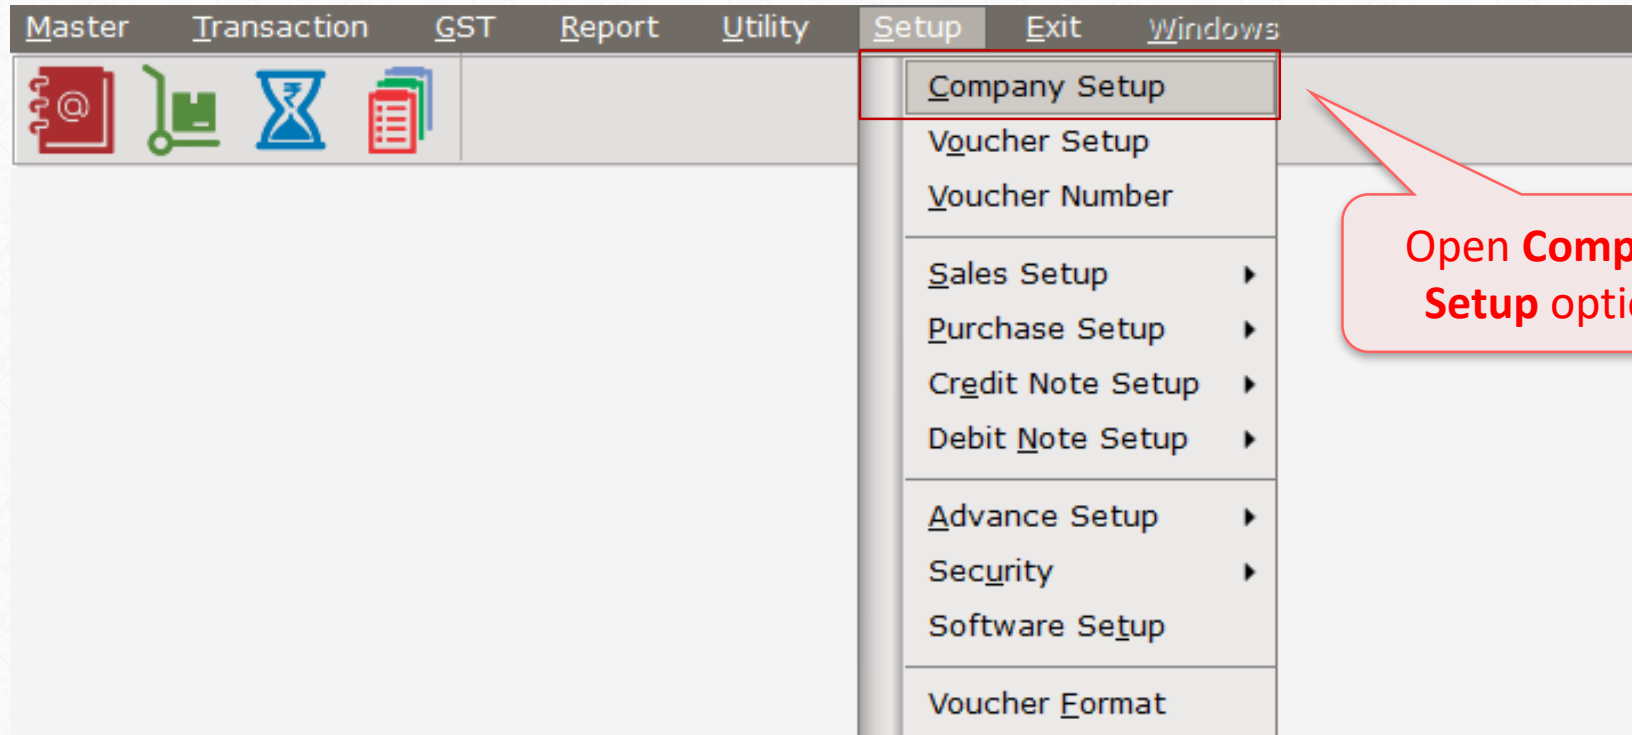

❖ Points that will be covered in this document:

- About Barcode
- Barcode allocation according to product's Alias Name and Serial No.
- Barcode Labeling
 - How to make new Barcode Label format?
- Barcode Printing
 - Usage of Blank Label
- Barcode Scanning using barcode scanner

About Barcode

- ❖ Millions of companies around the world rely on barcode to improve data management and accessibility, reduce costs and increase productivity.
- ❖ Barcodes are applied to products as a means of quick identification. They are used in retail stores as part of the purchase process, in warehouses to track inventory, and on invoices to assist in accounting, among many other uses.
- ❖ This barcode facility including barcode labeling, printing, and scanning by the POS system can be easily done in Miracle Accounting Software.
- ❖ How new Barcode label can be generated, setup of its margins and other scanning setups of barcode we will see in this guide.

- ❖ Note that, in Miracle, barcode can be assigned on the **product's Name, Alias Name, Serial Number, Batch Number** and/or its **User field**.
- ❖ We will create barcode of the product based on its,
 - ❖ Alias &
 - ❖ Serial Number
- ❖ Let's see one by one.

Setup -> Company Setup -> Company Setup		
Category	Description	Value
General Setup	E-Commerce Setup	
	Deal with E-Commerce Operator	No

In purchase voucher list, press "Ctrl + P" on a required voucher.

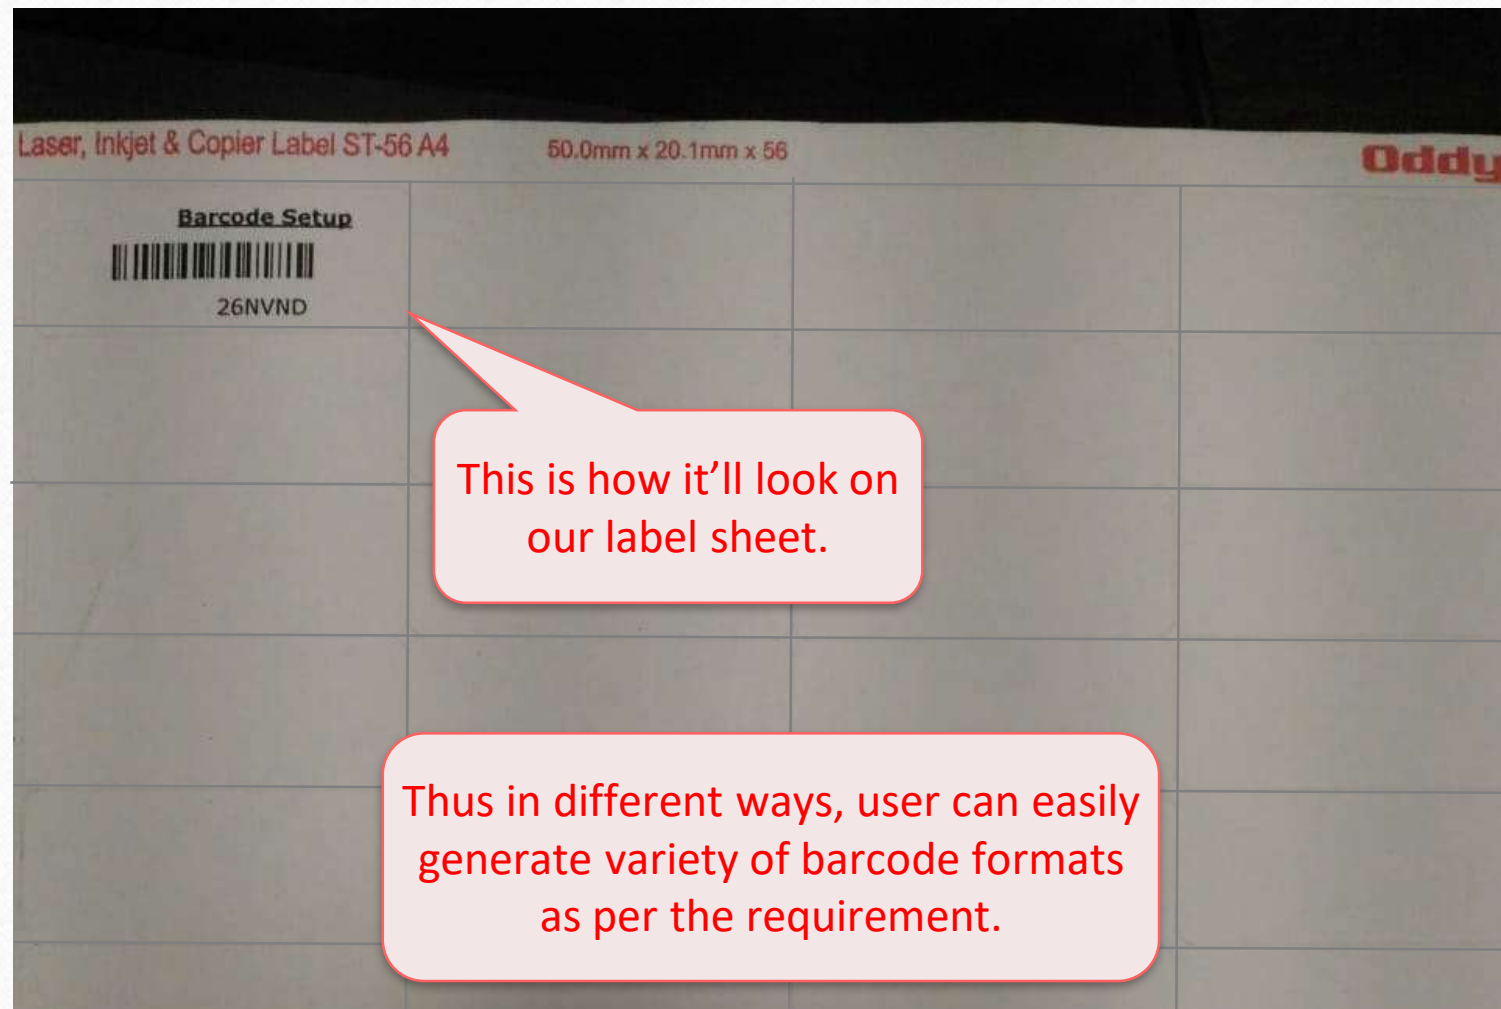

Here our new barcode label is shown. Select it and click on "OK".

Add Edit Delete Vou. Cancel Multi select Detail Master Filter Date SMS E-Mail Setup Range Voucher Print Export Copy Vou E-Way Bill Revised Cover

Now by pressing **Enter**, select products whose barcode we want to print.

Here, **Total Label** shows the total selected qty of the products.

Other Example Of Barcode Printing

When the user wants to print the barcode by leaving
few labels in the label sheet

- ❖ It is very natural that user may use a barcode label sheet to print just a few barcodes and then reuse it afterward.
- ❖ In the case of reuse of the same sheet, user has to skip the earlier printed labels or blank labels to print new barcodes.
- ❖ Miracle provides this facility to insert this number of blank labels of barcode label sheet.
- ❖ How and where? Let us see with an example.

An invoice with purchased items.

[illegible]

Format	Advance	Copy Type
PURC_ST56G.LBX	Report On: Screen

	Date	Vou No	Product Name	Qty	Change Qty
*	05/03/2020	GT/2	LG. R. S 31 NVND Refrigerator	3.000	1.000
*	05/03/2020	GT/2	V. AIR COOLER 121-DC	5.000	2.000

Select required product and its qty whose barcode we want and click on "Print".

We've selected 1 qty of refrigerator and 2 of Air cooler.

So it makes total 3 labels to print.

Change Qty Print Total Label = 3

Product's Serial No. wise Barcode

Make sure you have assigned serial no. to the products

Select required product whose barcode we want and click on "Print".

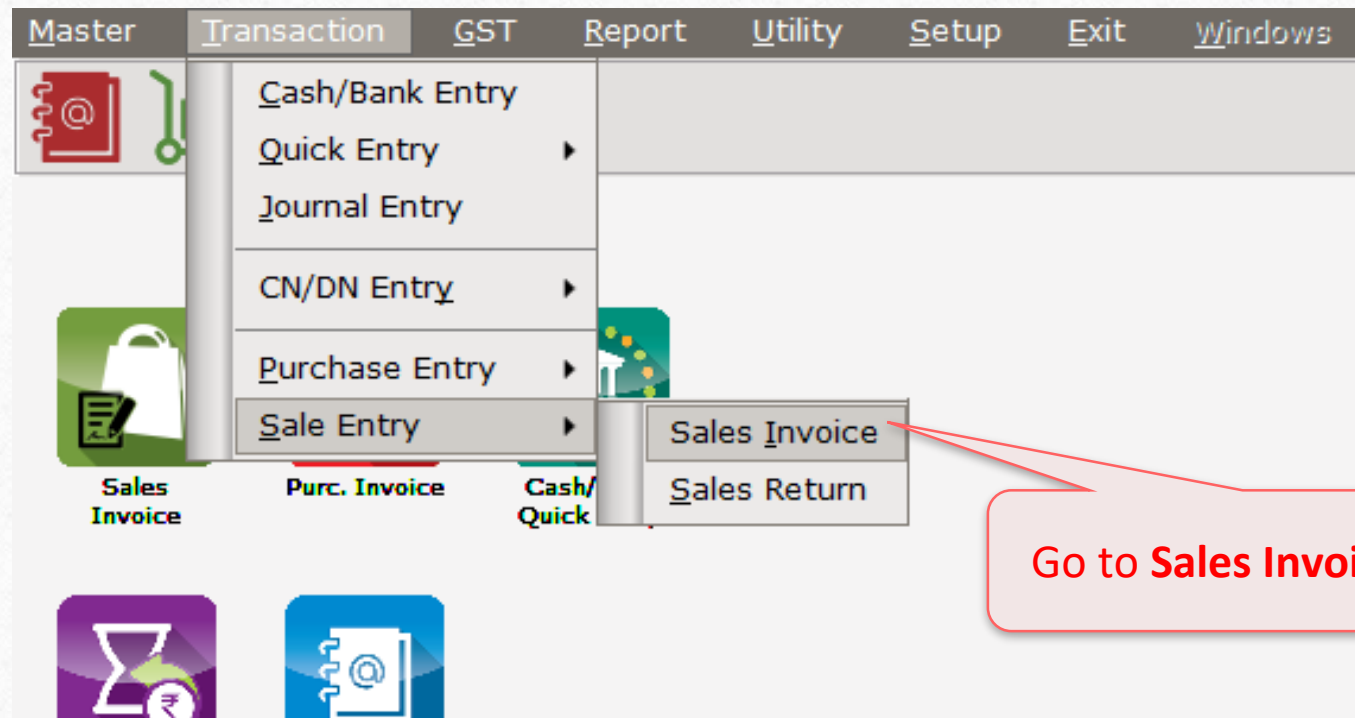

Barcode Scanning

- ❖ When we talk about a barcode, the POS system and barcode scanner become the other side of a coin.
- ❖ Before we move to the barcode scanning, user must set up the barcode scanner with computer/laptop.
- ❖ Remember that POS system can also be set up with computer system like barcode scanner.
 - ❖ (Note: To know more about POS entry setup in Miracle, follow the link below, <https://www.youtube.com/watch?v=6ervyLGrgJQ>)
- ❖ Now, we know that during sales, we use barcode scanner. So, by following a sales invoice let us learn barcode scanning.

Before that,

- ❖ What if barcode is already printed on the product and not generated in Miracle?
- ❖ In solution to that, user can scan the barcode also and make his purchase entry easier by just creating the account of the product in product master with its printed barcode number.
- ❖ Barcode number is always there on the product. So user can insert that number as serial number while creating account of the product.

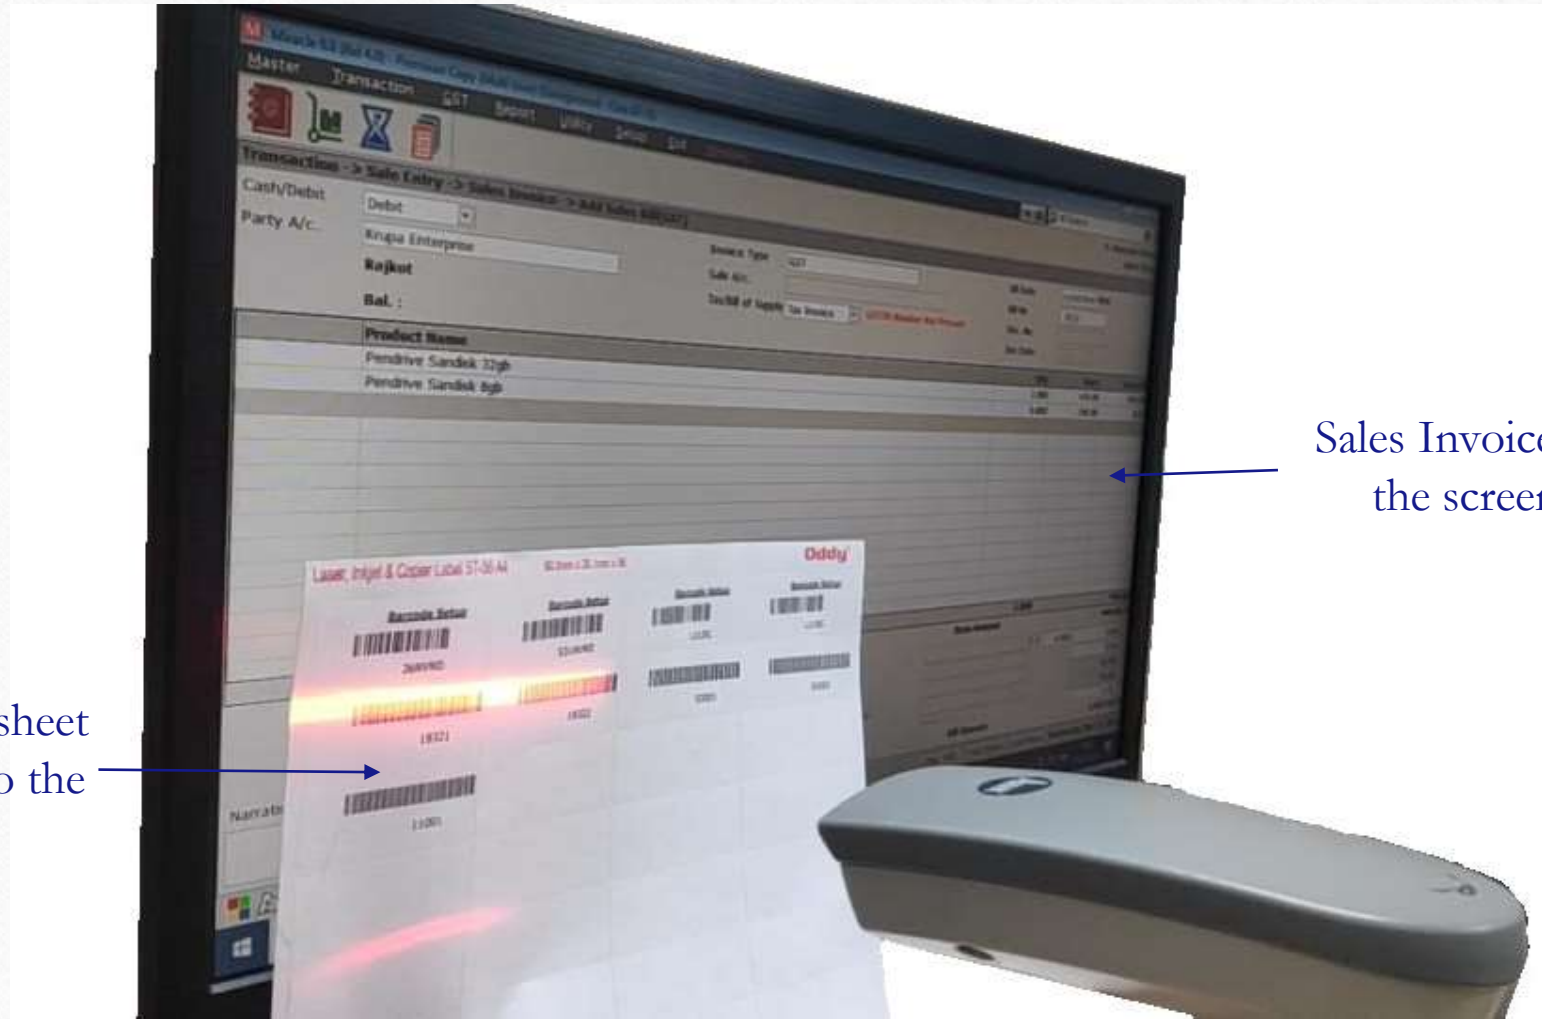

Transaction → Sales Entry → Sales Invoice → Setup(Ctrl+F3) → Barcode Column Width.

We have to scan the barcode on the products when our cursor comes here.

Let's see how scanning
can be done.

Barcodes on label-sheet
(which is applied to the
products)

Sales Invoice on
the screen

Barcode
Scanner

After barcode scanning,
related products will be
listed in the invoice.

So in such a simple way,
user can scan the barcodes.

More Setup of Barcode

Setup -> Company Setup -> Company Setup

Category	Description	Value
General Setup	Barcode Setup	
Advance Setup	Continue Product Entry?	No
Advance Modules	Cumulative Product Entry?	Yes
Master Setup	Barcode validation message required	Yes
GST Setup	Multiple Barcode Entry required	No

Report Setup	Default Type	
Serial No. Setup	Multiple Barcode Info Required	
Barcode Setup	Barcode Setup for Sales Return	
	Continue Product Entry?	
	Cumulative Product Entry?	
	Same Party In Sales and Sales Return ?	

After scanning a product, if we want our cursor to **automatically move to the next entry** then select **No** here.

By default it shows **No** here.
Let's see what effect we get in sales invoice.

Transaction -> Sale Entry -> Sales Invoice -> Add Sales Bill(GST)

Cash/Debit	Debit	Invoice Type	GST	Bill Date	11/03/2020 Wed
Party A/c.	G H Mehta & Co.	Sale A/c.		Bill No	GT/3
		Tax/Bill of Supply	Tax Invoice	Doc. No.	
Bal. :				Doc Date	/ /

Product Name	Qty	Rate	Amount
Pendrive Sandisk 8gb	1.000	190.00	190.00
Total Entry : 1			
	1.000		190.00

Narration	Discount	Item Amount	190.00 CR
	Freight	(-) 0.000	0.00
	Central Tax		0.00
	State/UT Tax		11.40
	Round Off		11.40
	Kasar A/c		n 20
	Bill Amount		213.00 DB

Barcode Setup for Sales Return

Continue Product Entry?

Cumulative Product Entry?

Same Party In Sales and Sales Return ?

Value

Yes

Yes

Yes

But if we select Yes here then...

... we'll be in the same entry and able to change rate if needed.

Setup -> Company Setup -> Company Setup

Category	Description	Value
General Setup	Barcode Setup	
Advance Setup	Continue Product Entry?	No
Advance Modules	Cumulative Product Entry?	Yes
Master Setup	Barcode validation message required	Yes
GST Setup	Multiple Barcode Entry required	
TDS/TCS Setup	Barcode Type	
Report Setup	Default Type	
Serial No. Setup	Multiple Barcode Info Required	
Barcode Setup	Barcode Setup for Sales Return	
	Continue Product Entry?	
	Cumulative Product Entry?	
	Same Party In Sales and Sales Return ?	

We have set **Yes** here.
Let's see what effect we
get in sales invoice.

If we want our product qty to be
increased in the same entry by successive
scanning of the same product then select
Yes here.

Look at the qty of the product.
If we scan the same product
again then...

... we'll get cumulative product entry.

Setup -> Company Setup -> Company Setup

Category	Description	Value
General Setup	Barcode Setup	
Advance Setup	Continue Product Entry?	No
Advance Modules	Cumulative Product Entry?	No
Master Setup	Barcode validation message required	Yes
GST Setup	Multiple Barcode Entry required	
TDS/TCS Setup	Barcode Type	
Report Setup	Default Type	trialNoWise
Serial No. Setup	Multiple Barcode Info Required	
Barcode Setup	Barcode Setup for Sales Return	
	Continue Product Entry?	
	Cumulative Product Entry?	
	Same Party In Sales and Sales Return ?	Yes

But if we select **No** here then...

Setup -> Company Setup -> Company Setup

Category	Description	Value
General Setup	Barcode Setup	
Advance Setup	Continue Product Entry?	No
Advance Modules	Cumulative Product Entry?	No
Master Setup	Barcode validation message required	Yes
GST Setup	Multiple Barcode Entry required	No
TDS/TCS Setup	Barcode Type	SerialNoWise
Report Setup	Default Type	No
Serial No. Setup	Multiple Barcode Info Required	No
Barcode Setup	Barcode Setup for Sales Return	
	Continue Product Entry?	
	Cumulative Product Entry?	
	Same Party In Sales and Sales Return ?	

Enable message by
selecting **Yes**.

This option informs user by
validation message if such products
contains such a barcode is available
or not.

During entry, when user scan irrelevant barcode, Miracle shows the validation message which explains user doesn't have scanned product.

Setup -> Company Setup -> Company Setup

	Same Party In Sales and Sales Return ?	Yes

Barcode setup for Sales Return is here.

First two options work same as we've shown earlier for sales.

This particular option describes whether we want same party to return the purchased products or not. (in the case of barcode entry only)

- ❖ **In a very easier way, Miracle provides such barcode facilities to enhance your productivity.**
- ❖ **For any queries and doubts, don't forget to contact your dealer.**
